
"We interviewed a number of companies to take over our IT function. Shipshape IT stood out among all of these companies, however, since their approach was to understand and document our IT environment, including our connection to the rest of the federation."

- Director of Finance and Administration
Non-profit Organization, Washington DC

"...unlike other potential providers we interviewed (Shipshape IT) took a good bit of time during the first meeting to physically assess our equipment and configuration."

- Director of Human Resources and Administration
Non-profit Organization, Washington DC

"Shipshape IT provided a smooth, predictable cut-over from our old vendor, and handled the transition quickly and without interruption nor surprise expenses."

- Partner at Maryland Law Firm
Law Firm, Maryland

"Shipshape IT on boarded our existing IT infrastructure and IT processes without any downtime during the initial transition - essential for our business."

- Chief Information Officer
Law Firm, Washington DC

"The engagement and support beginning with our initial meeting through the migration and ongoing support is flawless."

- Director of HR and Administration
Non-profit Organization, Washington DC

"Every time-frame commitment was met or exceeded."

- Office Manager of DC Law Firm
Law Firm, Washington DC

"Shipshape IT, from their onboarding process and documentation, to major projects, has seen us through growth with technical knowledge and reliability."

- Chief Information Officer
Law Firm, Washington DC
